CORDURA®

Cordura® is a high-performance, super-durable fabric that is perfect for outerwear.

Cordura® fabrics offer outstanding durability in the great outdoors, no matter what the climate. Garments made with Cordura® fabrics have outstanding abrasion resistance, which is important in "rough and tumble" environments like tight, thorny trails and rough off-piste terrain.

FLEECE

IT'S THE FABRIC QUALITY AND WEIGHT THAT GOES INTO RESULT® FLEECE THAT MAKES IT THE VERY BEST THAT MONEY CAN BUY.

TEFLON provides excellent water and stain repellency. **TEFLON** does not affect the breathability of the fabric. **TEFLON** is durable to washing and dry cleaning, however for optimum performance after washing, a heat treatment is recommended, either tumble drying or warm (2 dot) iron.

TEFLON is CFC free and dermatologically tested. DuPont is a registered trade mark for the finish.

The **Scotchlite™ reflective material** incorporated on certain products greatly enhances your safety at night and in low visibility situations by creating an extremely bright image that motorists can see from a distance. This reflective material returns light back to the source: for example vehicle headlights, consequently allowing motorists and pedestrians time to react.

Scotchlite™ is a trademark of the 3M Company

Thinsulate™ material provides excellent insulation from the cold without unnecessary weight or bulk. It is moisture repellent and breathable, so it controls the body's heat and moisture, ensuring the wearer's comfort at all time.

DECORATORS NOTE: ALL RESULT® PRODUCTS, WHERE POSSIBLE, FEATURE CONCEALED OPENINGS TO ALLOW EASY DECORATION ACCESS.

CARING FOR YOUR RESULT® GARMENT

Washing

Always look for the garment care label and follow the washing instructions. Washing machines, detergents and fabrics are specially manufactured to ensure that when washed at the right temperature your clothes will come out looking their best time after time.

The wash tub symbol tells you the washing process to be used.

60° Washing Symbol - Spin Cotton Cycle

60° Washing Symbol - Spin Synthetic Cycle

40° Washing Symbol - Spin Cotton Cycle

40° Washing Symbol - Spin Synthetic Cycle

30° Washing Symbol - Gentle Cycle

- Before washing, close all zips, undo buttons and flatten out collars and cuff. Check pockets and linings for loose or sharp objects.
- Turn garments inside out to reduce abrasion so avoiding contamination by fibres from other garments during the washing cycle.
- Always read the label for correct washing temperature.
- Garments of similar colours can be machine washed where stated on the care label.
- Do not overload the washing machine.
- Always use the correct amount of detergent depending on how dirty the garments are.
- Check garments regularly for marks or stains and remove as soon as possible.

Drying

Always check the care label to see whether a garment can be tumble dried.

Do not Tumble Dry

Ironing

The iron symbols advise the optimum temperature at which to iron. The dots represent the recommended iron temperature; the more dots the hotter the iron.

Iron Symbol with one dot 120°/248° (Cool)

Iron Symbol with two dots 160°/320° (Warm)

Iron Symbol with three dots 210°/410° (Hot)

- Iron each garment on recommended setting as per the care label.
- Do not iron directly onto a printed garment. Always iron on the reverse.
- When ironing dark garments avoid "iron shine" by either pressing on the inside of the fabric or through a damp cloth. This is not applicable if using a steam iron.
